

NIXLE NOTIFICATIONS

The Nixle Community Information Service allows us to create and publish messages to be delivered to subscribed residents instantly via cell phone text message and/or email. Notifications can also be accessed online at Nixle's web site at www.nixle.com

Messages that are sent out can range from an urgent emergency and crime alerts to day-to-day information including traffic advisories, missing person reports, public safety announcements, weather alerts and other information relevant to the Town of Hackettstown.

The service is secure, reliable and easy to use for our group.

The messages can be sent specifically to residents registered within a 1/4 mile radius, giving them the opportunity to receive trustworthy information relevant only to their neighborhood. Residents decide from which local agencies they want to receive information. Subscribers can also choose the way in which alerts are received, whether it is by email, text message, or over the web.

Nixle builds on the foundations of other public-to-public communication services, such as Twitter, Facebook, and MySpace, but adds a key component: security. When citizens receive information from our agency via Nixle, they know it can be trusted.
